## Heavy Grade Panel

### For: General Use

The panel comprises of a galvanised steel top and bottom sheet that are bonded to a high density particle board core for greater strength and durability, this then has High Pressure Laminate Abet Walkprint 577 or other customer approved, factory bonded onto the top of the panel, the panel is then finished with a full depth ABS edge banding.

It is designed to be gravity laid with complete electrical continuity and has a high resistance to damage.
