

# RMF - BEH600V Heavy Grade SD Vinyl Panel

## PSA MOB PF2 PS/SPU Heavy Grade

The panel consists of a high grade 38mm high density particle board core with full FSC accreditation in a sandwich construction with steel top and bottom sheet. It is then covered with our standard static dissipative Gerflor Mipolam EL7 Robust Vinyl or other customer approved. This then has a full depth ABS edge band applied creating a fully encapsulated panel to be laid with complete electrical continuity and has a high resistance to damage.

Product	Panel Grade	Point Load (25mm x 25mm)	Load Over (300mm x 300mm)	Uniform Distributed Load	Panel Thickness (Nominal)	System Weight (Typical)
BEH600V	Heavy	4.5 kN	N/A	12.0 kN/m <sup>2</sup>	42mm	45kg/m <sup>2</sup>

## Certification

The panel is fully tested by an independent UKAS accredited laboratory to the PSA MOB PF2 PS/SPU March 1992 Heavy Grade specification and is certified as being fully compliant. All of the RMF PSA panels have a 3 times working load safety factor, Class "O" spread of flame resistance and a 25 year warranty. **Full FSC accreditation.**  
No: FSC-ACC-008 TT-COC-003493

Galvanised steel top and bottom sheet with vinyl covering

Full depth ABS edging

## Finish

All of the RMF edge banded panels can have a wide range of factory bonded finishes that include wood, ceramic tile, carpet, high pressure laminate and vinyl. All of the edge banded factory bonded panels can be perforated for air flow. Whatever your requirement, RMF will have the flooring solution to suit you.

## Manufacture

All panels are manufactured for RMF in the UK, which allows us to offer total flexibility whilst maintaining the highest possible quality standard and ensures fast reaction and a reliable service. Materials used are sourced from high quality suppliers and use renewable, sustainable sources and suppliers wherever possible. We can also offer a bespoke service and specialise in replicating and reproducing existing raised floors.
