

# RMF - BG3S Encapsulated Screw Down Panel

## BSEN12825:2001 - 3/A/3/2 Medium Duty

The panel consists of a high grade 30mm chipboard core with steel top sheet and bottom tray all pressed together creating a fully steel encapsulated panel with predrilled holes to be screw fixed with complete electrical continuity. The screw down panel gives added stability and security as the void is inaccessible without specialist tools and is dimensionally accurate with a high resistance to damage.

Medium	3/A/3/2	3x	> 8.0kN	31mm	33kg/m <sup>2</sup>
--------	---------	----	---------	------	---------------------

### Certification

The panel is fully tested to the BSEN12825:2001 3/A/3/2 specification and is fully compliant. The RMF BG3S panels have a 3 times working load safety factor, Class "O" spread of flame resistance and 5 year warranty. Full FSC accreditation No FSC-ACC-008 TT-C0C-003493.

### Finish

All of the RMF Steel Encapsulated panels are designed to be overlaid with finishes by others such as loose laid carpet tiles. Whatever your requirements, Permaflor will have the flooring solution to suit you.

### Manufacture

All panels are manufactured for RMF in the UK, which allows us to offer total flexibility whilst maintaining the highest possible quality standard and ensures fast reaction and a reliable service. Materials used are sourced from high quality suppliers and use renewable, sustainable sources and suppliers wherever possible. We can also offer a bespoke service and specialise in replicating and reproducing existing raised floors.

The first choice for access flooring systems
